7. Currently, there is an issue with Android devices where the certificate is not trusted. When this happens, the user will see this on his or her phone as this is the first attempt at connecting. If this happens, click "CONNECT." The device will return the user to step 4. Continue from there.

8. Click Done (on an iphone) or wait 10 seconds:

**Authentication successful**

In 10 seconds you will be automatically redirected to <http://captive.apple.com/hotspot-detect.html>.

Click [here](#) to go there directly.

Press control-d to bookmark this page.
